Objective

I am a highly motivated and skilled Frontend Web Developer with a passion for bringing ideas to life. I possess a deep understanding of the latest web development technologies and a commitment to using them to create innovative and functional web experiences.

Skills & Technology

HTML & CSS   JavaScript   TypeScript   React / Redux   NextJS   NodeJS   ExpressJS

MongoDB   Chakra UI   Git   npm   Responsive Design

Work Experience

Frontend Developer

Valearnis - Technology Startup   **Mar 2022 - Current (1 Year)**

- Developed and implemented new features, resulting in an increase in user engagement and positive feedback from customers.

- Collaborated with cross-functional teams to troubleshoot and resolve technical issues, ensuring project deadlines were met.

- Conducted thorough testing and debugging of software applications, resulting in a decrease of bugs and increased system stability.

- Contributed to the development of a new software application, which was successfully launched and received positive reviews from users.

Frontend Developer

Airtasker / Fiverr - Freelance   **Dec 2021 - Dec 2023 (2 Years)**

- Developed and maintained responsive websites and user interfaces using frontend technology for clients in various industries, resulting in increased website traffic and user engagement.

- Implemented and optimised website performance through front-end optimisation techniques, resulting in faster load times and improved user experience.

- Provided technical support and troubleshooting for website issues, resulting in timely resolution and minimising downtime.
